

Energy & Water Conservation:

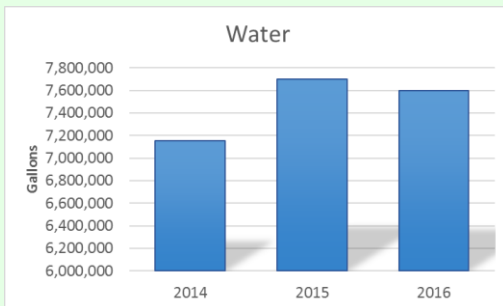

Electricity decreased 4.1% from 2014:

- Lighting upgraded to more efficient fluorescents and LEDs
- Modern chiller controls installed
- In-room energy management system installed
- White roof (R19 rating) reflects summer heat

Natural gas decreased 7.3% from 2014:

- Ozone laundry system lowers water heating needs
- Low flow fixtures reduce hot water demand
- Linen conservation program saves heated water

Water reductions planned for 2017:

- A complete toilet replacement was finished at the end of 2016 to replace all 3.0 gpf toilets to 1.6 gpf.
- Linen conservation program saves wash cycles
- Drip irrigation system for landscaping
- Low flow aerators installed in rooms and public spaces

Contributions to the Community

- Donated \$500 to Blandford Nature Center & involved 400+ community members on Earth Day
- Nearly \$2,750 of direct and in-kind donations to social and environmental charities in 2016
 - For 9th year in a row, sponsored the Grand River Clean-up

Certifications & Awards:

2017 Green Plan:

- Install a rain barrel for landscaping water • Institute an electricity demand reduction program • Recycle unused soap • Participate in Earth Hour • Donate amenities and linens to local homeless shelter • Promote Earth Day • Improve Trip Advisor Sustainability Rating • Host community recycling event for E-waste • Sponsor Grand River Clean-Up • Promote breast cancer awareness • Achieve Best and Brightest award for the 3rd consecutive year • Achieve Level 2 Green Engage Certification • Host Eco-Wrapping event
